

Facilities at RGUKT Basar

Hostel Facility

The residential nature of RGUKT requires that hostel facilities be provided for all students, especially since they come from geographically wide areas and cannot commute daily. RGUKT Basar has a total of 6 hostel blocks, with 3 for boys and 3 for girls. These hostels can accommodate around 8000 students in total.

- **Hostel Management:** Each hostel is managed by a caretaker who looks after the students' issues. Wardens, reporting to the Chief Warden, ensure the welfare of the students. Separate wardens and chief wardens are appointed for boys and girls.
- **Room Facilities:** Each hostel room is equipped with fans, lighting, a cot with a mattress, bed sheets, pillows, towels, and other basic amenities. Each wing has a common washing and toilet area.
- **Cleanliness:** Daily cleaning is ensured by housekeeping staff to maintain hygiene.
- **Recreational Facilities:** Special halls for reading and recreation are built in each hostel. A shuttle court is provided at the center of the building for recreational purposes.
- **Wi-Fi Facility:** The hostels are fully Wi-Fi enabled, though with controlled access to assist students in staying connected for academic purposes.

Student Counseling Center (SCC)

The Student Counseling Center (SCC) at RGUKT Basar offers guidance and counseling services for students on personal, educational, and career-related issues, promoting good mental health and personality development.
