Library Welcome to the Department of Electronics & Communications Engineering The Department
of Electronics and Communications Engineering was established in the year 2010 with world class
lab infrastructure, currently offers four year Undergraduate programme B-Tech in E.C.E with an
average intake of 240. The Department also affords two years Postgraduate programme, M-Tech in
E.C.E which accompanies with advanced technical courses with Computing Tools to aid for the
people seeking Teaching/Research career in computational Engineering/Sciences. The Department
is headed by Mr. G V S S K Naganjaneyulu and has efficient and reliable core Faculties around 17
in No?s with higher enthusiasm and commitment towards Learning. In parallel with teaching, the
Faculties here are prominently engaged with their own research activities. The Department is well
facilitated with 11 laboratories wrapping in modern state of the art infrastructure with committed and
dedicated Lab Staff, who are always available to assist the student needs and to maintain the
Laboratories. The Department encourages the participation of Faculties in various conferences,
research papers with active involvement in R&D activities. It conducts Guest Talks, FDP?s, and
Workshops by warmly inviting eminent Resource persons from various prestigious organizations
Apart from studies, the students are invoked with ?Learning by doing method? of activity and are
encouraged to do the innovative projects to explore their skill to the outer World. With the properly
planned and well executable Dynamic curriculum, it aims and sees students to get success easily in
their career. It ensures to exhibit the technical talent hidden in the students through Tech Fest-event
ANTAHPRAGNYA every year, and also illuminates the students and Faculties to explore their skills
in participating at various intra and inter college sports, Cultural, Technical competencies With the
best Platform offered, the Department always strives to make a student into calibrated Engineer to
compete with real world challenges. Vision Providing technical knowledge and enriching the skills of
rural youth to excel in academics, and research in the field of Electronics and Communication

Engineering. Mission Impart the knowledge in fundamental science and technologies through learner centric approach by encouraging every learner to actively participate, and interact. Shaping the future engineers by enhancing the skills of students with state of art curriculum and internships to foster the students to the current needs of the industries, and society. Encourage students and faculty in Research in the core fields of Electronics and Communication Engineering and interdisciplinary areas to achieve global recognition. To train and enhance soft skills, Professional ethics in students for overall development
